

# What is Architectural and Interior Design?

Stanley Nakamura, AIA (January 2018)

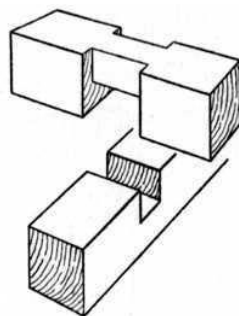

Architectural and Interior Design is the “detailing” of a project.

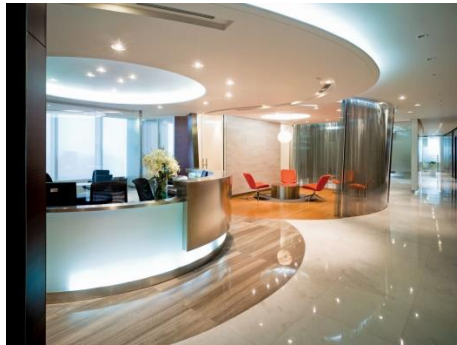

Architectural and Interior Design can begin in the early stages of a project.

Architectural and Interior Design may have a focus on separate parts of a project.

Architectural and Interior Design can set the project up for an overall impressive design or look.

*impress!ve*

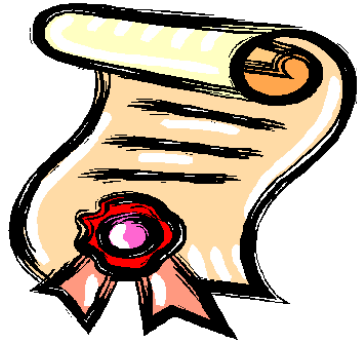

Architectural and Interior Design generally provides for a healthy and improved work environment.

Architectural and Interior Design may save in building operating costs for the Building Owner.

Architectural and Interior Design could lead to a national award for the project.
